

5 things
to know
before you
begin your
rooftop solar
journey

By Animesh Manek

1. **The difference between on grid and off grid solar PV systems.**

By Animesh Manek

2.
Sunlight
received at
your location
across 12
months of the
year.

3.
**Area available
on your roof and
how much of
that is shadow
free.**

4.
Wind speed
experienced in
your area during
monsoon storms
and the solar
plant's **structural**
stability
requirement.

5.
Subsidy and
financing
schemes
applicable and
available to you
as per your
location.
